CB-5222-31 End of Sale

Security Product Bulletin

CB-5222-31 End of Sale

Announcement Date: May 9, 2017

In parallel to releasing new products, we would like to announce an update regarding the discontinuation of the CB-5222-31 product:

FLIR ioi HD bullet camera CB-5222-31 option with 6-50mm lens will be discontinued, effective immediately. Product replacements include the CB-5222-11, CB-5222-21 as well as CF-5222, equipped with 8-50mm.

All replacement products are using an upgraded visible sensor with better low light and WDR performance.

All ioi HD camera models offer high-quality full HD video combined with on-board military grade video analytics and support target hand-off to PTZ tracking.

See the following table for summary.

Product	Status	Effective	Replacements
CB-5222-31	EOS	Immediately	CB-5222-21 & CF-5222 with 8-50mm lens
