## Latitude VMS Version 6.2 End of Life Notice

---

March 31, 2017

Latitude VMS V6.2 was first released in Q1 2012 and has been expanded since then with Service Packs and Software Updates. The 6.2 versions were followed by releases of VMS version 6.3, 6.4, 7.0 which introduced many exciting features, improved performance and enhanced integration with other platforms and edge devices.

The FLIR software lifecycle policy includes 3 years of support and an additional 2 years of Expansion-Only, for a total lifetime of 5 years. Since the 5-year life cycle period has expired, **FLIR announces the end of life of Latitude VMS version 6.2.**

New versions of Latitude have many benefits including new and improved features, wider range of supported edge devices, more robust applications, and bug fixes. Upgrades are available for free to customers with a valid Software Service Agreement (SSA) or they can be purchased directly by customers who do not have an SSA in place. Alternatively, customers are encouraged to purchase SSA that will include both the upgrade as well as on-going technical support for a newer version.

### **Versions Announced End of Life:**

All Latitude VMS 6.2.x releases, including service packs, plug-in packs and hot fixes, and any other addition or modification.

### **Effective Date:**

Immediately

### **Replacement Products:**

Latitude VMS version 7.0

Latitude VMS version 6.4
